Additional Notes:

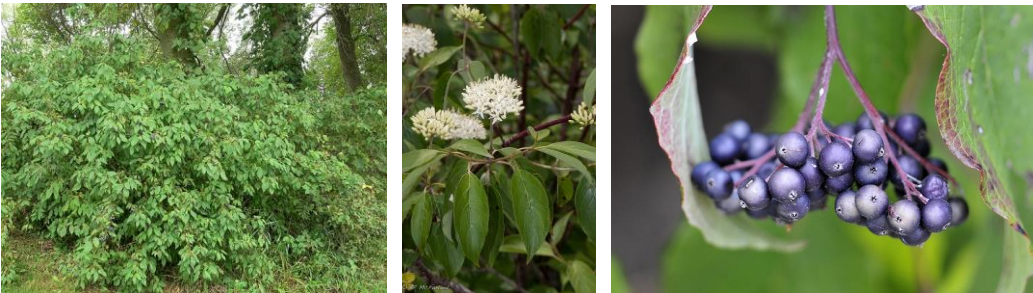

## 2022 TREE DESCRIPTIONS

**American Arborvitae (White Cedar)** – Moderate to fast growth. Good privacy and windscreen tree; moist soil of any type, except hard clay. Good year long evergreen color.

**North Carolina (White) Pine** – Prefers full sun, moist, well-drained, fertile sandy loams, and cool, humid climates and full sun. Excellent for windbreaks, sound barriers. Grows 50' to 80'.

**Silky Dogwood** – is large to medium-sized deciduous shrub that may grow 6 to 12 feet tall. Prefers well-drained medium to wet acidic soils. It may be grown in full sun, partial shade, and even tolerates close to full shade.

**Red Oak** – is a deciduous tree that may grow 60 to 90 feet tall. The tree produces a 3/4- to 1-inch acorn. This plant is tolerant of dry and acidic soil and air pollution. It sustains the best growth in full sunlight with well-drained, slightly acidic, sandy loam.
